

Young children learn and develop differently. One baby may walk earlier than another, while another baby might talk first. Often, these differences will even out. But, some children will need extra help.

Look for signs that your infant or toddler might need extra help. Early help makes a difference! If your child does have a problem, the earlier you get help, the better.

Where Can Parents Get Help?

Call the Early Intervention Program in your county. You will be put in touch with someone to evaluate your child's development. Then, if your child is eligible, together you'll make a plan to get help for your child – and you.

What Help is Available?

Early intervention services are provided to help your child grow and develop, and to help you care for your child.

These services include evaluation services (including hearing and vision screening); home visits; speech, physical and other therapies; child development groups; family counseling; and, sometimes, even help with transportation. These services are provided at no cost to you.

What Children Need Early Help?

Any child from birth to age three with a developmental delay, disability or condition that affects development may need help.

Who Do I Call?

For the phone number of your county's program, call the New York State "Growing Up Healthy" 24-hour Hotline at.....

1-800-522-5006

In New York City, call.....

311

Or, you can call the New York Parent's Connection (1-800-345-5437).....

1-800-345-KIDS

Monday through Friday,
9:00 a.m. -5:00 p.m., about this and other child-related services.

Or visit the NYSDOH Web page at www.nyhealth.gov/nysdoh/eip/index.htm

Checklist for Growing Children

Here's what you can expect your child to be doing, from birth to age three. If your baby seems different, call your local Early Intervention Program.

3 months

At three months of age, most babies:

- turn their heads toward bright colors and lights
- move both eyes in the same direction together
- recognize bottle or breast
- respond to their mother's voice
- make cooing sounds
- bring their hands together
- wiggle and kick with arms and legs
- lift head when on stomach
- become quiet in response to sound, especially to speech
- smile

6 months

At six months of age, most babies:

- follow moving objects with their eyes
- turn toward the source of normal sound
- reach for objects and pick them up
- switch toys from one hand to the other
- play with their toes
- help hold the bottle during feeding
- recognize familiar faces
- imitate speech sounds
- respond to soft sounds, especially talking
- roll over

12 months

At 12 months of age, most babies:

- get to a sitting position
- pull to a standing position
- stand briefly without support
- crawl
- imitate adults using a cup or telephone
- play peek-a-boo and patty cake
- wave bye-bye
- put objects in a container
- say at least one word
- make "ma-ma" or "da-da" sounds

If your child is having trouble doing some of these things, it may put your mind at rest to talk to someone. Early help makes a difference! Talk with your doctor or call your local Early Intervention Program.

1 1/2 years

At 1 1/2 years of age, most children:

- like to push and pull objects
- say at least 6 words
- follow simple directions ("Bring the ball")
- pull off shoes, socks and mittens
- can point to a picture that you name in a book
- feed themselves
- make marks on paper with crayons
- walk without help
- walk backwards
- point, make sounds or try to use words to ask for things
- say "no," shake their head or push away things they don't want

2 years

At two years of age, most children:

- use two-to-three-word sentences
- say about 50 words
- recognize familiar pictures
- kick a ball forward
- feed themselves with a spoon
- demand a lot of your attention
- turn 2-3 pages at a time
- like to imitate their parent
- identify hair, eyes, ears and nose by pointing
- build a tower of four blocks
- show affection

3 years

At three years of age, most children:

- throw a ball overhand
- ride a tricycle
- put on their shoes
- open the door
- turn one page at a time
- play with other children for a few minutes
- repeat common rhymes
- use three-to-five-word sentences
- name at least one color correctly
